Part #	Description
DEX/23-105	Complete L.H. Brake Assembly
DEX/23-106	Complete R.H. Brake Assembly
DEX/71-48	Shoe Kit / 2 Shoes Only, No Hardware

New Replacement Hydraulic Disc Brake Pads

Superior "Graphite- Metallic" formulation for superior " NO FADE" stoping ability and better noise suppression. Excessive duty, not a semi- metallic pad.

State of the art,100% "Positive Mold" manufacturing process for precise quality control vs. cheaper inconsistent "flash mold" process.

"INTREGALLY MOLDED" for bonding under exact heat and pressure controls.

Special backing plate "RETENTION SYSTEM" - designated by "RS" suffix - as noted on select applications for maximum heat resistance under severe braking conditions.

Sets are individually boxed and labeled with pads shrink wrapped inside.

Part #	Application
KD184	For 3.38 caliper
KD224	For Bus / Truck 2.50 Caliper
KD225 RS*	For 2.88 Caliper
KD236	For Bus / Truck 2.88 Caliper
KD459	Chevy, GMC, Trucks & Vans
KD655	For Ford / Dodge Truck
KD786ARS*	For Bus / Truck 66MM Caliper
KD786RS*	For Bus / Truck 73MM Caliper

* "RS" designates special backing plate retention system.
